REMARKS

The figures of births and deaths shown in this statement for week ending the 4th June, 1955, relate to 192 towns with an estimated population of 25,991 thousands. The total number of towns is 300 and their population is 38,998 thousands. Thus 64% of the total number of towns representing 66% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 14,539 and 7,201 representing birth and death rates of 29.1 and 14.4 per thousand of population respectively.

(a) *States (Part A and Part C)*:—The data here relate to 165 towns with an estimated population of 22,505 thousands. Information about Ajmer, Bihar, and West Bengal could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 66% of the total number of towns representing 69% of the total

population is covered. The number of births and deaths recorded in these towns were 13,068 and 6,330 representing birth rates and death rates of 30.2 and 14.6 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B)*:—The data here relate to 27 towns with an estimated population of 3,488 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 56% of the total number of towns representing 54% of the total population is covered. The number of births and deaths recorded in these towns were 1,471 and 871 representing birth and death rates of 21.9 and 13.0 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
